

# THE EMERALD HEIGHTS FOUNDATION SCHOOL

# Infrastructure For Holistic Development

We nurture your child's tomorrow inside our beautiful state of the art infrastructure.  
Each child is encouraged to go as far as his/her natural curiosity and ability takes him/her.

---

**NACHIKETA – The Multimedia Theatre :** Lights! Camera! Action! THE THEATRE FOR BUDDING STARS: Jack and Jill to Ring – a – Ring – a – Roses, Robin Hood to Cinderella, Snow White to Beauty and the Beast, Lord Rama to Lord Krishna, fairy tales to mythological stories, anecdotes to fables, students are encouraged and taught to enact myriad of roles to overcome their apprehensions and shed their inhibitions. A bold and beautiful mind is made to grow continuously and spontaneously without stage fear.

**DRAMATICS/STORYTELLING ROOM:** Stories told with finesse and creativity always stimulate a child's imagination while it enriches his/her language and enhances analytical skills. Stories also expand the repertoire of sounds and words. Our skilled teachers use this effective tool of learning to build a child's literary skills.

**MONTESSORI LABORATORY:** The Montessori Laboratory gives the tiny toddlers a comfortable space to explore the realms of dexterity and coordination which is an important part of development. Our qualified Montessori teachers perpetually monitor and guide the pupils.

**ART AND CRAFT – LANDSCAPE OF THE SOUL:** Colours in hand, our little children are given the gentle nudge to open the windows of imagination and express their soft and tender feelings on the canvas. When the heart is dipped in rainbow colours, it exhibits God's gifts of talents. The world of dreams and the world around is painted, moulded and given shape by the little fingers through the medium of fine arts.

**PLAY AREA:** All work and no play, makes Jack a dull boy! We believe in this axiom and so work towards the holistic growth of our students by empowering them physically along with academic prowess. The craze of building sand castles or using building blocks to construct homes, playing hide and seek or engineering the interiors of a doll house, all are an integral part of our daily learning.

**SMART CLASSES:** Our school is always in step with the world of modern education. Technology therefore is an integral part of our school and classrooms right from kindergarten. The castle is very well equipped with smart classes which helps maintain children's interest and engagement in learning, and break free from the rote learning. Smart class provides teachers with instruction material mapped exactly to the specific curriculum guidelines for use in class.

**DANCE ROOM:** Children are introduced to the basics of dance and music in a fun and light hearted atmosphere. Creative expressions through fluid body movements, developing dance skills along with stamina are all built with a range of activities.

**MUSIC:** At Emerald Heights we introduce Music at an early age as it's not just a fun activity but it plays a major role in a child's development. Through Music our children develop a sense of creativity and self-expression.

**W**e focus on offering our children opportunities which inculcate in them a thirst for questioning, exploring and discovery. The framework of our curriculum boosts the child's academic, social, physical, emotional and cultural development.

Teaching and learning strategies vary according to the purpose of the task and needs of the child. Our teaching staff is always there to guide and encourage our children in a caring and supportive environment making them independent learners.

**S**et on a hilltop overlooking the beautiful lush green grounds of our majestic school, the castle looks like a vision of a benevolent fairy spreading her wings to invite the young pupils into her fold with all her love, compassion and care.

Dhruv - The Castle has an attractive open courtyard with a stage running parallel to it. It has a Grecian Garden at the rear, a sandpit, mushroom sliders and ladders. The children learn and play in a world of their own, with their trips in and out of Classrooms, Dramatics/Storytelling Room, Nachiketa – The Multimedia Theatre, Art and Craft Room, Montessori Laboratory, Dance Room, Music Room, Brain Matrix/STEM Laboratory, Smart Classes and Play Area.

**O**ur Foundation School is a happy and lively unit where individual needs of the children are catered to by our efficient and caring teachers who continuously monitor the children through the stages of their development. Children have opportunities for first hand learning and grasping through first hand experiences. They are encouraged to question, explore, apply and test out what they know and can do through comprehensive enquiry based learning. With keen observation the teachers work towards moulding each child into a confident and curious learner who has strong analytical and critical skills.
