

# THE EMERALD HEIGHTS FOUNDATION SCHOOL

## Our school provides comprehensive infrastructure designed to foster holistic development across various domains.

We cultivate your child's future within our stunning, state-of-the-art infrastructure. Each child is encouraged to explore their natural curiosity and abilities to their fullest potential.

---

**Smart Class:** Our school remains at the forefront of modern education, integrating technology, starting from kindergarten. Equipped with state-of-the-art smart class, we ensure sustained interest and engagement in learning, moving away from rote methods.

**Montessori Laboratory:** Designed as a nurturing space, the Montessori Laboratory provides young children with a comfortable environment to explore and develop dexterity and coordination skills crucial for their early development. Under the guidance of qualified Montessori teachers, pupils receive continuous support and direction.

**Storytelling Room/Library:** In our creatively designed space, stories are woven with finesse to ignite children's imaginations, enrich their language, and enhance analytical skills. Through this engaging medium, our skilled teachers expand students' repertoire of sounds and words, effectively nurturing their literary skills.

**Brain Matrix and STEM Education:** The school believes every child has immense potential. Our Brain Matrix and STEM programmes are designed to foster cognitive development, creativity, and critical thinking through hands-on experiments and scientific exploration. The Brain Matrix programme enhances cognitive skills, memory, and concentration by developing problem-solving abilities, spatial awareness, visual processing, and logic.

**Art and Craft: Landscape of the Soul:** In our nurturing environment, children explore their creativity with colours, encouraged to open the windows of imagination and express their tender feelings on canvas. Through the medium of fine arts, their hearts dipped in rainbow colours reveal the gifts of their talents.

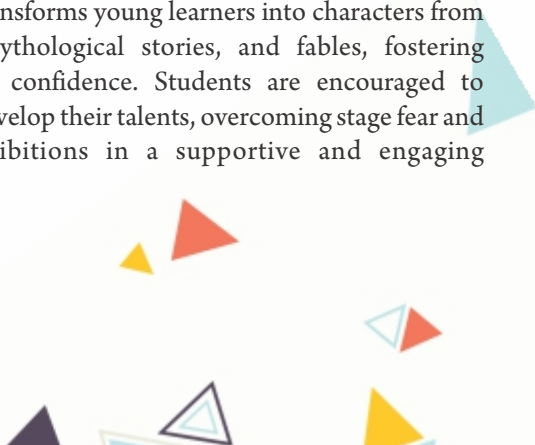

**Dance Studio:** In our dance room, children are introduced to the fundamentals of dance and music in a lively and

enjoyable atmosphere. They explore creative expression through fluid body movements and develop dance skills while building stamina through a variety of engaging activities.

**Music Studio:** At our school, we introduce music at an early age, recognizing its pivotal role in child's development. Beyond being a fun activity, music fosters creativity and enhances self-expression in our students. We provide age-appropriate musical instruments and structured music programs to help children develop their musical skills. Through these programs, students learn rhythm, melody, and harmony, which contribute to their cognitive and emotional growth.

**Play Area:** At our school, we embrace the axiom that "all work and no play makes Jack a dull boy." We prioritize the holistic growth of our students by nurturing their physical development alongside academic excellence. Outdoor and indoor activities are essential for experiential learning, promoting physical health, teamwork, and practical skills. These activities enhance cognitive development, creativity, and social interaction, providing a well-rounded educational experience.

**Nachiketa – The Multimedia Theatre:** The school has a mini multimedia theatre, specially designed for kindergarten students. Equipped with modern facilities and state-of-the-art equipment, this theatre provides an ideal space for dramatics, storytelling, recitation, and various other activities. It transforms young learners into characters from fairy tales, mythological stories, and fables, fostering creativity and confidence. Students are encouraged to explore and develop their talents, overcoming stage fear and shedding inhibitions in a supportive and engaging environment.

**W**e prioritize providing our children with opportunities that nurture curiosity, exploration, and discovery. Our excellent curriculum framework supports their academic, social, physical, emotional, and cultural development.

Teaching and learning strategies are tailored to each task's objectives and the child's individual needs. We guide and encourage students within a caring and supportive environment, fostering independence and a love for learning.

**T**he Pre-primary building features an inviting open area. Here, children immerse themselves in a world of learning and play, transitioning seamlessly between classrooms, the Dramatics/Storytelling Room, the Multimedia Theatre, the Art and Craft Room, the Montessori Laboratory, the Dance Studio, the Music Studio, the Brain Matrix/STEM Laboratory, Smart Class, and the Play Area. This conducive atmosphere ensures that our youngest learners are engaged and stimulated in every aspect of their development.

**O**ur Foundation School is a vibrant and joyful community, where we attend to the individual needs of each child. We diligently monitor every stage of their development, fostering first-hand learning experiences that encourage questioning, exploration, application, and testing of knowledge through comprehensive inquiry-based learning approaches. With keen observation and personalized guidance, we strive to nurture each child into a confident and curious learner, equipped with strong analytical and critical skills. Our aim for pre-primary students is to provide a solid foundation that inspires a lifelong passion for learning and prepares them for future academic success.
